Following a brief discussion, a motion was made by Southwest Director Hause and seconded by Southwest Director Hamblin to ratify, approve, and confirm the vouchers paid and payable, as presented, and to authorize Southwest Directors to execute checks in payment of the payables. The Chair called for a vote of the Southwest Board, and the vote was as follows:

Anthony M. Dursey	Aye
George E. Hamblin, Jr.	Aye

4. **Southwest Investment/Deposit Transaction Report.** The Boards reviewed the Schedule of Investment Principal Activity for Southwest for the month of January 2017, which reflects the following transactions:

(a) **New Purchases.** No treasury notes or agency securities were purchased by Southwest during the month;

(b) **Redemptions.** No investment securities matured, or were redeemed, or sold by Southwest during the month;

(c) **Renewals.** On January 7, 2017, Southwest renewed a \$249,000. Certificate of Deposit at Centennial Bank and Trust for a period of one year. The Certificate of Deposit will mature on January 7, 2018, and earns interest at the rate of 0.8% per annum.

project. A portion of Jefferson County's road improvement project conflicts with Southwest's existing 8" asbestos cement water line pipe which needs to be relocated in order to accommodate the road improvement project. A portion of the existing Southwest water main does not need to be relocated, but Southwest would like to replace it nonetheless, all as part of one relocation project. Pursuant to the IGA that has been negotiated, Jefferson County will pay 50% of the design and construction cost for that portion of Southwest's 8" diameter water main that is incompatible with the road improvement project. Southwest will pay 100% of the design and construction cost for that portion of the existing 8" water main that is not incompatible with the road improvement project. The relocation cost for the entire water main is estimated to be approximately \$328,815.00. Southwest's share of that cost will be approximately \$214,115.00.

Under the proposed IGA, Jefferson County will award a contract for the construction of not only the road improvements, but also the relocation of Southwest's water main. Southwest will pay its proportionate share of the contract amount in accordance with the terms of the proposed agreement. As a result of the proposed agreement that has been negotiated, Southwest will be able to replace its existing 8" asbestos cement water line for the full length of the road improvement project at much less cost than if Jefferson County did not participate in the water main relocation.

At the conclusion of the discussion, a motion to approve the Intergovernmental Agreement and to authorize its signature by appropriate officers of Southwest was made by Southwest Director Hause and seconded by Southwest Director Hamblin. The Chair called for a vote at the Southwest board conference, and the vote was as follows:

Anthony M. Dursey	Aye
George E. Hamblin, Jr.	Aye

2. **Manager’s Information Report.** The manager reviewed the Manager’s Information Report, dated February 2017, a copy of which was previously provided to both Boards. As part of his report, the manager highlighted the following matters:

(a) **Personnel Matters/Assistant Manager.** After going through an extensive selection process, the manager made an offer for the assistant manager position to a person currently employed by the American Water Works Association. She underwent an extensive background check and interviewed with all staff; everyone is very excited about her coming on board. It is expected that she will start sometime towards the end of March 2017.

(b) **Newsletters.** Barrie Brinkley is in the process of finalizing the first draft of the 2017 Newsletter for both Southwest and Platte Canyon. The draft will be submitted to the Boards for their review very soon. Director Dursey suggested that the

## RECORD OF PROCEEDINGS

---

newsletter include some information, at least with respect to Southwest, as to how the Southwest's residents' sanitary sewer bills compare with other districts in the area, especially since Southwest has no property tax mill levy and only recently implemented a charge that is collected on everyone's water bill by Denver Water.

(c) **Platte Canyon Purchase of Property Adjacent to the Scott J. Morris Water Pump Station Property from Denver Water.** The manager reported that Denver Water's staff has now made a determination that the property Platte Canyon wants to acquire from Denver Water adjacent to the Scott J. Morris Water Pump Station on Ken Caryl Avenue, is surplus and is available for sale. The next step in the process is for staff to submit the matter to the Board of Water Commissioners for authorization to sell the property. It is expected that this will happen soon. Once this occurs, then legal counsel for Platte Canyon will work with Denver Water in filing a condemnation action to acquire the property without an extensive subdivision exemption process through the Jefferson County Planning Department.

(d) **Remodel of Southwest/Platte Canyon Office.** During the month, Genterro LLC and its subcontractors made substantial progress in completing the Southwest office remodel project. Alyssa Quinn gave the Boards a brief update, noting that it appears that most of the major work is at least 80% complete. There are some minor items that need to be completed. A check in partial payment of the amount owed to Genterro to date was approved by Southwest as part of the Southwest payables. This check will be not be released to Genterro until appropriate lien waivers have been obtained from the various subcontractors who have furnished work and materials on the project. The manager expressed his expectation and hope that the project will be completed in the very near future and within the initial projected budget, although the time for completion is approximately 3 months beyond the schedule as initially contemplated.

(e) **Valley Sanitation District Sanitary Sewer Outfall Line.** During February, Alyssa Quinn, Scott Morris, Tony Cocozzella and the manager participated in the first of three open houses designed to educate Valley Sanitation District customers concerning the status of the district's outfall sewer interceptor line. The outfall line extends over and across property that was part of an Englewood land fill and currently needs to be relocated. The work will cost approximately \$2 million and will require the electors of the Valley Sanitation District to authorize the district to incur debt in approximately that amount. Only twenty-one residents attended the session; however, there were members of the media there, and as a result, the meeting and the condition of the sewer interceptor line got a great deal of publicity. It is anticipated that more residents will attend the next two open houses.

## RECORD OF PROCEEDINGS

---

(f) **Revised Residential Assessment Rate.** The manager report updated the Boards on what now appears to be a certainty that the residential assessment rate for determining the assessed valuation within all special districts and taxing areas will drop from 7.96% of actual estimated market value to 5.9%. South Suburban recently completed a study which shows that South Suburban may lose as much as \$2 million in 2018 as a result of the reduction in the residential assessment rate. The adjustment in the residential assessment rate is the result of the Gallagher Amendment. Platte Canyon staff is in the process of evaluating the impact the new residential assessment rate will have on Platte Canyon and the other districts that Platte Canyon manages that are dependent on property tax revenues for operating expenses.

3. **Operations and Maintenance Summary Report.** Scott Hand reviewed the Operations and Maintenance Summary Report for January 2017. For the January reporting period, neither Platte Canyon nor Southwest had any sanitary sewer service interruptions. Platte Canyon had one water service interruption at 7215 South Platte Canyon Drive, and Southwest had one water service interruption at 5612 South Ward Street. Mr. Hand presented a PowerPoint presentation showing the repair activities that were undertaken to respond to these water line breaks.

During January, Mr. Hand and Armando Quintana attended an Emergency Services Workshop Training session at the Adams County government offices. The focus of the training session was to study scenarios and actions that could be taken in the event of a major water supply loss as a result of a catastrophic event.

In addition, Mr. Hand, Pat Fitzgerald, Tony, Alyssa and Armando attended the Denver Water Distributor Portal training which was held on January 26, 2017. At that training session, Denver Water staff reviewed how to access the Distributor Portal for Southwest and Platte Canyon and in other distributor districts, and indicated what contents would be placed on the portal website.

Finally, Mr. Hand provided an update of the rehabilitation project at the Platte Canyon Scott J. Morris Water Pump Station on Ken Caryl Avenue. During the month, an incident occurred where flash fill accidentally got into the new suction main being installed for the Pump Station. Glacier, the contractor, had to re-excavate and replace approximately 12 feet of pipe. The project, however, is still on schedule and it is expected that testing of the components of the new pump station will begin in late February or early March.

4. **Construction Project Report.** Tony Cocozzella reviewed with both Boards the Construction Status Report for both Platte Canyon and Southwest. The

## **RECORD OF PROCEEDINGS**

---

Report updated the Boards as to the status of all on-going Platte Canyon and Southwest projects, including developer and District-specific projects. As part of the review, Mr. Cocozzella also addressed those projects that are in design-phase at the present time.

### **NEW BUSINESS**

There was no new business to come before the joint participation portion of the meeting. The next joint regular meeting of the Boards is scheduled for Friday, March 24, 2017 in the Districts' offices located at 8739 West Coal Mine Avenue, Littleton, Colorado 80123. Mr. Flynn asked the Boards if it would be possible to reschedule the April meeting from April 28 to April 21 due to vacation plans that he has. Those Board members present indicated that they did not think it would be a problem. This matter will be discussed by both Boards in greater detail at the March regular meeting.
