Version 2019.2

## Projects and Pop-Ups

Four water main replacement projects are scheduled for construction in 2019. These projects will be in construction starting in July and are scheduled to be complete by early November 2019. Platte Canyon will have Informational Pop-Up tents for these projects in the proper subdivisions that may be affected by the construction.

## New Employee

We are pleased to announce the recent hiring of Bridget Butterfield to the position of Communication and Administrative Services Coordinator. She will be the main point of contact for all communications, customer service events and social media accounts.

## Drought Status

According to the most recent update from the NIDIS drought monitor, all but 0.01% of Colorado is no longer experiencing drought. However, Outdoor Watering Rules are in effect as of May 1st.

## Denver Metro Water Festival

The Platte Canyon staff volunteered at the 6th annual Denver Metro Water Festival. This year's festival was held at Red Rocks Community College for the first time with another successful turnout. It was a fun and interactive day of educating sixth grade students on the importance of water.

## Infrastructure Funding

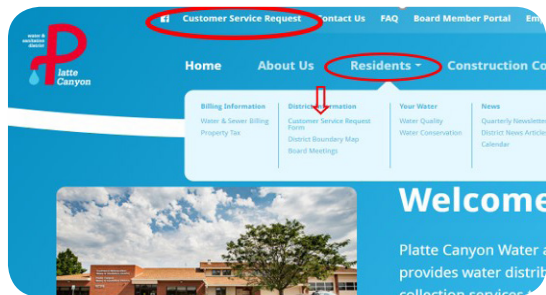

The District is planning almost \$11.5M in infrastructure projects between now and 2028. As the projected revenues do not fully cover the costs of these projects, the Board is currently evaluating other funding mechanisms.

## HOA Presentation About Your Water and Sewer District

Recently, our staff has given presentations at local HOA meetings to let customers know who we are and who to contact in certain situations. If you think your HOA or community may be interested in a short presentation from our District, please contact the District at 303-979-2333 or info@plattecanyon.org.

## New Online Customer Service Request Form Available

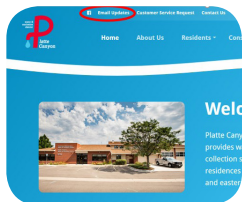

We are now featuring a new, fast way to report non-emergency customer service requests. You can easily fill out a request form by clicking on the link at the top of our website or under the Residents sections. A simple, fast way to report non-emergencies is just a few clicks away!
